there's no time for later my lost and lonely friend  
you were the instigator of your destruction and descent  
there's beauty in disaster but it's hard to see from here  
it might take just a little more time or just a few more  
beer

(chorus)

hey joe, it's time to hit the road, it's time to go  
let's go your moving way too slow this aint no joke  
you're slow, get your hat and grab your coat  
it's time to go, lets go, it's time to hit the road!  
there's no time for later

you lost your mind; you lost your head,  
you told off all your friends  
now you're living on my couch  
and this affair has got to end

you overstayed your welcome here  
you made an ugly mess  
you brought me down to where you're at  
and it's making me depressed

(chorus)

and i don't want you here anymore  
get your shit off of my floor  
here's your hat and there's the door

(chorus)
