(harmonica & piano)

Gonna catch that Illinois Central  
Gonna ride around the bend  
I'm gonna catch that Illinois Central  
I'm gonna ride around the bend  
Well, and the Lord only know  
Just when I'll be back again

I'm goin' back home  
Where I know I have a friend  
Well, I'm goin' back home  
Where I know I have a friend  
They'll be so glad to see me  
They won't even ask me where I've been

Conductor, raise your hand  
So the engineer can ring the bell  
Conductor, raise your hand  
So the engineer can ring the bell  
When those wheels start turnin' over  
I wanna be at the north, farewell

(harmonica & piano)

This time, tomorrow  
There's no tellin' where I'll be  
This time, tomorrow  
There's no tellin' where I'll be, Lord  
But you can bet your bottom dollar  
I'll be somewhere down on the I. C.

~
