Adrienne, my silly friend  
Put down the knife  
Go on spare his worthless life  
Adrienne, beautiful star  
You will not find a one  
Who spits her snot soâ€¦  
... far into the britches of a maiden fair  
I can see her caress the penguins  
On his underwear  
While focusing my binoculars  
I fell out of my tree  
Adrienne, stalker ex-girlfriend  
Put down the knife  
Go on put down, put down...  
The feces you carefully taped to his door  
Will only slip and fall to the floor  
But Adrienne, I love your mind  
I love your collarbones  
And yes I love your behindâ€¦  
...your eyes  
You're not sad  
You're not lonely  
So hop on your bicycle  
Because he just called the police please!  
Adrienne, stalker ex-girlfriend  
Put down the tweezers  
Go on put down, put down  
Adrienne, put down put down the knife
