Somewhere my love waits for me.  
Somewhere beyond the sky and sea.  
Somewhere I'll see her and my heart will know  
This is the face that I love so.

I hear her voice everywhere  
Even in dreams she is there.  
I'll search forever 'till the day I die  
And somewhere, someday I'll find my love somewhere.

Somewhere I'll see her and my heart will know  
This is the face that I love so.

I hear her voice everywhere  
Even in dreams she is there.  
I'll search forever 'till the day I die  
And somewhere, someday I'll find my love somewhere.
