A walk along the beach  
The world within our reach  
That is the magic of our summer love

The sweetness of your lips  
So very close to mine  
The love light in your eyes  
That happiness we find

Is the magic of our summer love  
Is the magic of our summer love

Musical interlude

The whisper of the sea  
Echoing your name  
The soothing ocean breeze  
That set my heart aflame

Is the magic of our summer love  
Is the magic of our summer love  
Is the magic of our summer love  
Is the magic of our summer love
