"Long Goodbye"

I say I love you, you say that's kind
You don't wanna get too close
You loved me crazy, I lost my mind
Listen

You're everything I've never wanted
And all the things I didn't need
This ain't who I wanna be

You don't have to stay forever
I'll take passion over pride
Full moon, high tide
Let's make it a long goodbye

Tomorrow we'll pick up the pieces
Try to mend our broken lives
Soft kiss, sweet lies
Let's make it a long goodbye

Yeah, I cried in silence
I lived through you
I've given everything away

And maybe I can learn to fall
For someone who can give me all
The things I'm not afraid to lose

You don't have to stay forever
I'll take passion over pride
Full moon, high tide
Let's make it a long goodbye

Tomorrow we'll pick up the pieces
Try to mend our broken lives
Soft kiss, sweet lies
Let's make it a long goodbye

Whenever you see lonely faces
That's where I'll be
Don't cry for me, no, no, no
Don't cry for me

Hey, don't cry for me, no, no, no
I'm gonna be okay

You don't have to stay forever
I'll take passion over pride
Full moon, high tide
Let's make it a long goodbye

Tomorrow we'll pick up the pieces
Try to mend our broken lives
Soft kiss, sweet lies
Let's make it a long goodbye

You don't have to stay forever
I'll take passion over pride
Full moon, high tide
Let's make it a long goodbye

Tomorrow we'll pick up the pieces
Try to mend our broken lives
Soft kiss, sweet lies
Let's make it a long goodbye
Goodbye, goodbye
