"Step To Me"

I see you creepin' baby
Starin' from over there.
You really took me with your
Dark eyes and tangled hair.
Won't you step,
Step,
I want you to step to me.
Oh I'll beg and I'll plead baby
Won't you come over soon.

Now I got you closer baby
I smell that lilac perfume.
There's somethin' burnin in me
I wanna get you to move.
Won't you step,
Step,
I want you to step with me.
Oh it's dim and there's drinks honey.
Can't we tie it down soon.

It's been so long baby
Since I had somethin' real.
Oh, I'm just asking oh won't you come whisper
To me
If you feel like I feel.
Won't you step,
Step,
I need you to tell me please.
Oh I know I won't run sugar.
When you do me like you do.

So please, please, please
Won't you step to me.
Darlin please, please, please
Won't you step to me.
Won't you step to me.
