Sitting in a fun pub  
Nothing every gets done  
Then someone opened the door  
Lying in the corner  
Just by the window  
Til some one opened the door

Fascination - nobody see  
Fascination - what did he say?  
Fascination - nobody see  
Fascination - what did he say?

Instead of peering outside  
I'm always looking inside  
Then someone opened the door  
Everything was changing  
I wasn't even standing  
When someone opened the door

Fascination...

When he used to see her  
Down by the parking meter  
She used to make him a man  
All sorts of places visiting cases  
He remembered the shape of her hand  
When he used to see her  
Down by the parking meter  
He used to make her a man  
All sorts of places visiting cases  
He remembered the shape of her hand

Sitting in a fun pub  
Nothing every gets done  
Then someone opened the door
