"Save Me"

Now I have cried a river since the day you said
goodbye
And if you don't come back I'm going to drown in the
tears I cry

Save me - save me
Save me - save me
Come on and save me
I need you so

Like falling off a mountain slope I'm sinking down so
fast
Clinging to a twig of hope that this separation won't last

Save me - save me
Oh why don't you save me
It's up to you to save me
I need you so

Without you here beside me I'm only half alive
Stay away from me any longer and I can't survive

Save me...
