Oh watch a man - there goes Norman
He'll get you if he can - there goes Norman
He's always hiding in the dark
Be sure to wander past the park at night

Oh what a surprise - there goes Norman
He'll poke out your eyes - there goes Norman
He never let's himself be heard
Too busy running after girls at night

There goes Norman
There goes Norman

Mother tell me what can I do?
The girls are laughing they're very cruel
Don't worry Norman your time'll come
And you can mean them and bring them home

He's out to night - there goes Norman
He'll slain tonight - there goes Norman
Meanwhile the cops are on the heat
Cos Norman's waiting in the street tonight

There goes Norman...
