"Turning Blue"

Heavenly eyes
That smiled on me
A tender kiss that had to be
Always - always
The same - the same
Look whose falling in love again
The night isn't angry with me

Our beating hearts
Two distant stars
A lovely way to say we are
No need - no need
Too far - too far
A lesson in love JUST isn't t love enough
The night isn't angry with me

And it suddenly sounds
Like it always comes
As Monday creeps up on you
A perfect day for someone turning blue

Heavenly eyes
That smiled on me
The sweetest thing that's ever been

Always - always
The same - the same
Look whose falling in love
