"You Stand So Close"

If it's a fact some thing won't ever change
Will your super V's remain the same

I don't care if you won't care
You stand so close - but you're never there

You break my heart but you confess you do
So who can I send the pieces to

I don't care...

You deliberately made a fool of me
You gave no excuse so what's the use of you
I know you won't wait cos it's always too late
I know you won't wait for me to return
It takes more or less that's made of us

With piety must we pretend
What could be has gone again

I don't care...

If I've been good you never tell me so
With love like that I'll never know

I don't care...
