# "Melody For An Unknown Girl"

Sometimes it's hard to say the right words  
Even when they're written in your heart

Most songs have words  
But this one,  
Which is written for someone  
I don't even know yet

I can't find the right way  
To say the things I want to say

So there are no words  
Just a melody  
For a girl

[Instrumental break]

Sometimes it's hard to say the right words  
Even when they're written in your heart

Most songs have words  
But this one,  
Which is written for someone  
I don't even know yet

There are no words  
[Fade]
