I want to know, how you could do this?  
With a knife in my back and a smile on your face.  
The trust destroyed, the result of a savage.  
Crushed the faith, that I once had in you.  
That I once had in you.

This is where you toss and turn, toss and turn.  
This is where you sit and burn,  
This is where you sit the fuck down and burn.

And this is where I'll realise,  
That this is more than you're taking it for.  
This is where I'll pay the price,  
For your actions, distractions, reactions you fuck.

Look at yourself!  
You're such a fucking mess!  
Such a mess.  
Such a fucking mess.  
Look at her!  
She's got no damn respect,  
A fucking wreck, such a fucking wreck!

What she touches, it turns to shit, it falls apart.  
It's just not fucking fair!  
It's just not fucking fair!

She picks and chooses her victims, fuck I'm stupid.  
Why did I let her in?  
Why did I let her in?

Find yourself a hole, where you can sit and burn,  
You wont grow old, cause you're frozen.

With my eyes closed, well I don't want trouble here.

You're a sacrifice, you're a waste of my precious time,  
Your reflections return, you are no one.  
Dead weight in my eyes, you're a waste of my precious  
time,  
If you could only see, if you could only see.

Let me see it, let your fury unveil. Let me see it!  
Let me see it, let your fury unveil. Let me see it!  
You sold your soul to the devil himself, you're off to  
hell.  
You sold your soul to the devil himself, you're off to  
hell.

With my eyes closed, well I don't want trouble here,  
With my eyes closed, well I don't want trouble here.

You're a sacrifice, you're a waste of my precious time,  
Your reflections return, you are no one.  
Dead weight in my eyes, you're a waste of my precious  
time,  
If you could only see, if you could only see.

Take a look at your reflection!  
Tell me what do you see?  
Take a look at your reflection!  
Tell me! Tell me!  
I see a monster! I see a fucking monster!  
I see a monster! Staring at me.

With my eyes closed! Well I don't want trouble here.  
With my eyes closed! Well I don't want trouble here.

You're a sacrifice, you're a waste of my fucking time,  
Your reflections return, you no one.  
Dead weight in my eyes, you're a waste of my fucking  
time,  
If you could only see, if you could only see.
