### 1st Verse

I must have walked a mile within these walls and now  
I'm down to my last draw  
It's just the cold hard truth that I'm trying to say to you

### 2nd Verse (same as 1st verse)

No regrets understood I just don't love you like I should  
It's just the cold hard truth that I'm trying to get through  
to you

### 3rd Verse

And I'm tired of living a lie I just can't love you till I die  
It's just the cold hard truth that I'm coming to realize

### 4th Verse (same as 3rd verse)

So a rambling I must go find a way out of this hole  
It's just the cold hard truth and no happiness I found  
with you

### 5th Verse

My mind's been made up it can't be changed no longer  
will my heart be caged  
It's just the cold hard truth and I'm saying goodbye to  
you
