I took a slip on a Gemini head trip too far  
With all your tears and all my fears, my battle scars  
I ran in circles for you right into the ground  
I can't help but feel that I let you down  
When I walked away from you

[Chorus x2]

I'm falling apart without you here  
But it's the same way when you are near  
'Till I wake up, wake up and walk away  
Wake up, oh...

Tiny images of you still course through my veins  
Pumps to my heart and that's where they remain  
Well I'd pay the ransom for you if you'd stay around  
I can't help but feel that I let you down, when  
When I walked away from you  
Well it burns my lungs when I took a breath to say  
good-bye  
'Cause I don't mind the pain sometimes  
When I was yours and you were mine  
Until I had to walk away from you

[Chorus x2]

And when you and I burn  
When I walk away  
(wake up, wake up and walk away)  
And I walk away  
(wake up)  
Forever you and I burn  
When I walk away  
(wake up, wake up and walk away)  
And I walk away oh...  
(wake up)
