Mmmmmm, Yeah, Oh-Oh

[VERSE 1:]

A couple of years  
And I'm gonna know your name  
It's like I waited for ya forever  
And I know this might sound insane  
But it won't be long  
'Til we're gonna take this up  
I'm talking about our future love

You're so far away  
Maybe you're right next door  
Got me picturing your face again  
Something worth waiting for  
I put all the others behind me  
They don't live up  
I know what I want  
What I need to the T

[CHORUS:]

Baby if they asked me  
I would say I don't even know your name  
And if they asked me  
Does it change?  
No, it don't change a thing  
Cause there's something about the way you'll love me  
There's just something about the way you'll know me  
That I can't explain enough  
There's just something about our  
Future love [x3]  
There's just something about our  
Future love [x3]

[VERSE 2:]

Walking hand in hand  
Don't have a second take [? ]  
I can picture what you're wearing  
And a kiss I can almost taste  
The thought of all the ways we'll meet for the very first  
time  
I can see the place, feel the love...

First sight

[CHORUS]

[BRIDGE:]

Oh no

The minute u pull up next to me

We standing there like destiny

When it feels like you're fighting

Just to breathe that's when u know

The minute I pull up next to you

Suddenly I don't know what to do

Everything inside you says that I'm the one

[CHORUS]
