how can i explain this to you?
there is so many things i need to say
after all that we have been through
there should be no need to play the games we play

i just want to be real
there's no need to conceal
better feel we're running out of time

if i could bring down the stars
if i could wipe out the scars
if i could change ____ and make you love me more
i feel it slipping away
with every word that we say
what will make you love me, make you love me more?

maybe i should've held you closer
maybe i should've spend more time with you
cause the times i said i love you
i realized they were few and far between

is it getting too late?
am i facing my faith?
i can't wait cause we're running out of time

if i could bring down the stars
if i could wipe out the scars
if i could change ____ that make you love me more
i feel it slipping away
with every word that we say

what will make you love me, make you love me more?

this isn't how it's supposed to be
i always saw it as you and me
so won't you show me the way to make you love me,
make you love me more?
yeah

no no no no no
make you love meee, oh baby

what can i do?
what can i say?
to make you want me again that way
what can i do to make you stay
to make you love me again, love me again that waaaay

if i could bring down the stars
if i could wipe out the scars
if i could change ___ that make you love me more
i feel it slipping away
with every word that we say
make you love me more?

if i could bring down the stars
if i could wipe out the scars
if i could change ___ that make you love me more
i feel it slipping away
with every word that we say
what will make you love me, make you love me more?
