Can I come over tonight
Darling, let me come over tonight
Please don't say it's late
For darling I can't wait to see you again

Please let me kiss you tonight
Darling let me you tonight
Am I asking too much, oh darling, yes
Your touch drives me insane again

And I feel what I can't understand
It's real. So true,
This love I feel, yes, for you

Can I come over tonight
Darling, let me come over tonight
Got your loving, my heart can't wait
We'll never part for I love you so.
