"Stand As One And Fight For Glory"

Visit "[Stand As One And Fight For Glory](#)" on MotoLyrics.com

We'll beat this corruption, reverse the destruction, we'll
stand as one
- unite to conquer those who betrayed and attacked
through greed.
Rise up against the hatred.
A new breed dictatorship spreading the disease as we
die.
Their disease is war.
Their disease is hate.
We must purify to prevail.
We can only see what we believe [and] as the world
turns black our eyes must be open.
Breaking the hold before we fall our spirits guide us on
our way, smash down the walls and rise again, reclaim
the innocence that binds us to our fate.
In the battle within all weak will die, without the
innocence we will not survive, without the memories we
have only fear, without the soul - the life we must lead.
Listen with your heart.
See the world with new eyes.
Rise up and justify your life - rise up and justify your life
to save your soul.
Rise up and justify innocence.
We will survive.
