Prepared to fight until I die
Shadowed by fear in flames I stand
The reaper waits for me to call to him

This is the only life I have
And my faith commands my strength
Honor awaits and glory lies here

Deep beneath the storms' eye wakes
Another reason, another reason
To fight to save my life, life, life
Fight to save my life

I see you walking through the night
Slowly you creep looking for weakness
When I feel my heart stop beating

Inside this darkness I find light
I will not fall without a fight
I'll take the pain but you can't have my soul

Prepared to fight until I die
Shadowed by fear in flames I stand
The reaper waits for me to call to him

This is the only life I have
And my faith commands my strength
Honor awaits and glory lies here

The time to take control has begun
This is my time to live again
This is all I have, this is all that I have

I see you walking through the night
Slowly you creep looking for weakness
When I feel my heart stop beating

Inside this darkness I find light
I will not fall without a fight
I'll take the pain but you can't have my soul

Bringing your night

Bringing your night to smother
My light my spirits shield
And now the phoenix rises
This feud has just begun, go

Dead silence lies beneath me
Like a mortuary where dead dreams linger
I have witnessed the solution
I won't suffer without fighting
Time won't stop if I wait
