Sex drugs
Freak outside
Drive me
away

Grendel where'd you get that gun?
Grendel's gonna hurt someone
Grendel's killing everyone
Bodies lying in the sun
Grendel where'd you get that gun?
Grendel's gonna hurt someone
Grendel's killing everyone
Bodies lying in the sun

Terrible raving
Panic and screaming
Face against metal
Mind numb and dreaming
Demons surrounding
Everyone's guilty
They look so clean but
They are so filthy

They are beasts
But I'm a monster
Rape machines
Gods that make us devils

(chorus)

Terrible raving
Panic and screaming
Outside my head now
Nobody's dreaming
Blood on the floors and
Blood on the ceiling
Everyone's dead now
Nobody's screaming

(chorus)
