### "Feel"

This darkness cooled my light  
We move to different sides  
I poured the guilt right over my eyes  
As I rose to greet the sky

I've never felt this before  
See you dead on the floor  
I can't recall a single day  
That's gonna make this pain slip away

My senses have been so cold  
Didn't know how to feel or hold  
For a second I felt something in you  
For a second I believed in you

And I wanna know  
And I wanna be  
And I wanna feel

And I wanna know  
And I wanna be  
And I wanna feel

And I wanna know  
And I wanna be  
And I wanna feel

And I wanna know  
And I wanna be  
And I wanna feel

We could, my friend  
We can  
We could, my friend  
We can  
We should not end  
I wanna be part of...

And I wanna know  
And I wanna be

And I wanna feel
