Like the birds to the trees, trees to the leaves
Lord, how I need You
Like the sun, up in the sky, Jesus, You're the light
Oh, how I need You

I've had a diamond, so perfect
I've had some dreams come true
But all of this ain't worth it
If I had to live my life without You, oh

Like the birds to the trees, trees to the leaves
Lord, how I need You
Like the sun, up in the sky, Jesus, You're the light
Oh, how I need You

And when my nights are cold and lonely
You keep me safe and warm, warm
And there's no place that I'd rather be
Then resting here in Your arms, arms

Like the birds to the trees, trees to the leaves
Lord, how I need You
Like the sun, up in the sky, Jesus, You're the light
Oh, how I need You

I need Thee, oh, I need Thee, oh, oh yeah
Every hour, I need Thee
Oh, bless, bless me right now, my Savior
I've come, oh, I've come to Thee

Like the birds to the trees, trees to the leaves
Lord, how I need You
Like the sun, up in the sky, Jesus, You're the light
Oh, how I need You

Like the birds to the trees, trees to the leaves
Lord, how I need You
Like the sun, up in the sky, Jesus, You're the light
Oh, how I need You
