Underneath the lights
On the stage in my hometown
You've never seen the likes
So many people singing aloud
Singing along to my song
Speak in your ear, chill you to the bone
Too much is never enough
No matter how much you'll always want more

All the people so friendly
All they do is apologise
All the people so friendly
We're gonna dance, dance, dance into the night

Drink like the Irish
One second your as high as a kite
The next your on the floor
You know the Scots there's always a fight
Has there ever been reason to bite
Keep your lips on me as hard as you might
Pour them from a height
Drown me in a cloud of delight

All the people so friendly
All they do is apologise
All the people so friendly
We're gonna dance, dance, dance before the fight

Now we've kissed lets make the most of this
I don't care who's wrong, I just don't want to go home
alone

Sacrifice delight
A part of life never ignored
Give me all you've got
I can take it all and more
Seen it in a film before
Stingy drinks and thugs on the door
I've seen this before
Its your turn to chill me to the core

You used to be so friendly
Now all you do is apologise
Before you go on your frenzy
Lets dance, dance, dance into the night

Now we've kissed lets make the most of this
Before the night turns sour, lets use this final hour,
SWEETHEART!

Now we've kissed lets make the most of this
I don't care who's wrong, I just don't want to go home
alone

Your out of line, your out of line, your out of line, go
home (x4)

Now we've kissed, lets make the most of this (x4)

Now we've kissed, lets make the most of this
before the night turns sour, lets use this final hour
SWEETHEART!

Now we've kissed lets make the most of this
I don't care who's wrong, I just don't want to go home
alone

Gotta make up at the end of the night (x3)
