Everyone

When everyone's sleeping through the night

When everyone's sleeping through the night

Little and full, my hands

When everyone, everyone

When everyone's sleeping through the night

When everyone's sleeping through the night

Little and full, my hands

Hotel bathroom

Off the deep end

There's a light on

Sleeping beauty

Share your wisdom

Keep the smoke in with a towel

Stand back

Recollection

Will betray us

Sleeping beauty

Write a memoir

Eye through your see

Make me honest, share the proceeds

Stand back

(When everyone's sleeping through the night)
