Another sad game of who's fuckin' who
Who's getting fucked and who's doing the screw
What was once thought dead was brought back and
made real
All eyes crossed and lips sealed

So this is living this is life
It's a battle tank world against my pocketknife
Been twenty years and i just can't get it right
I'd like to know tell me who said so

That smile on your face you've always been rehearsing
Feelings fucking change and backs are always turning
Trust is hard to say watching friends turn enemies
Whatever this was worth was left in the dirt

So this is living this is life
It's a battle tank world against my pocketknife
Been twenty years and i just can't get it right
I'd like to know tell me who said so

So this is living this is life
It's a battle tank world against my pocketknife
Been twenty years and i just can't get it right
I'd like to know tell me who said so
I'd like to know tell me who said so
I'd like to know tell me who said so
