I feel it pinching my skin with a needle so thin  
This is the picture of my painful realm  
And when I see the dawn of a new day rise  
I can barely breath - I'm no longer me

It's just an emblem of reflections  
Of the darkness that grows inside me  
Just the killing reality  
See it drowns my time - As i die

[chorus]  
Cause I am here just to be with you  
Nobody near..  
Cause I am yours just to be with you  
Nobody near...

And it has begun to drag me so deep down  
That I can't even remember where I was  
And when I think of my days in the place I dwell  
I see nothing but pain everyday
