"Make It Disappear"

Inside of me I can see the hope of glory
Years ago He came knocking on my door
Inside of me I can hear a simple question
Just whose glory am I hoping for
Make it disappear
Everything I built with my hands
Make it disappear
Kick it over like a castle of sand
'Til nothing stands
Inside of me I can feel the ghost of freedom
Busy trying to clear a place of rest
He listens well so here's my request
Let my kingdom fall
Every castle, every wall
Let my kingdom fall.
