

The Wake Up Call **"The Fire"**

Can you hear the whisper running through your ear
I speak of secrets for you to hear
When i sleep i sleep tonight
You'll be right by my side
You look so senseless, out of control

We made it this far now
Just to turn back
I'm not letting go

We are, we are, we are the fire
You are, you are, you are the liar
We are, we are, we are mistaken
You are, you are, you are the risk thats worth taking

Can you feel the emptiness inside this heart
You took the pain away right from the start
When i sleep i sleep tonight
You'll be right by my side
You look so senseless, out of control
