(Reg Mombassa)
When you have too much pleasure
In the course of the night's activities
You have to be very clever
Avoiding the bad effects of these
I just wanna be happy
Don't wanna be sad
Don't want to be too possessive
You're the girl that I should always have
You might be feeling silly
Unable to converse properly
This could be of damage
To your social acceptability
I just wanna be happy
Don't wanna be sad
Don't want to be too possessive
You're the girl that I should always have
All my friends might come around
And try to make me feel so good
But I can't find relief in there
Cause both my arms are made of wood
I just wanna be happy
Don't wanna be sad
Don't want to be too possessive
You're the girl that I should always have
Falling over the furniture
Your head is starting to spin
You'd better leave pretty smartly
Or the host won't be asking you back again
I just wanna be happy
Don't wanna be sad
Don't want to be too possessive
You're the girl that I should always have
