I will burie you alive leave you dead for about a minute
dig up a big grave for you just put yo body in a little
ditch,

kick your door straight in have the cops running in
searching for that warrant dust yo body to a cold
smooth clamshell,

so phenomenal puting on a five star show for da peeps
who represent I am not quick just b average,

you better read yo script take a real lesson right there
victims will be dead today my lyrics are sicker than
yours,

don't copy my verses and rhymes because I will take
you faster than a thundershower call me mr. Rated R
superstar,

you just got served with da cranky moves I just did on
the dance floor these wankstas don't need no baseball
glove to catch my freestyles,

getting real big green bucks md is the bad bad man
because he is just ballin game over boy.

Destruction I said get on yo knees,

destruction we are taking over,

destruction you can't stop us now,

destruction nothing will change me,

destruction make them beg for mercy,

destruction don't burn in my light,

destruction.

Md is who I be I was just rashing on your boys from the
start get real low do that dance like you do,

stand up on one toe dust yo shoulders off from left to
right let them lean from the back to da world,

roasting yo arms and legs on da grill for my sick dinner
the thriller is coming to your nightmares,

tonight the evolution will bring cash to me a bullet is a
stone tablet that goes right through yo heart check yo
self before you step to me,

knock them down with a gunna to the gut being at the
hard knocks with those thugs and gangstas that got no
plan with help from yo girl next door,

like I said before it's game over boy what's up.

Destruction this fire still burns,

destruction all day long,

destruction all summer long,

destruction all nightmare long,

destruction we are taking over,

destruction you can't stop us now,

destruction nothing will change me,

destruction make them beg for mercy,

destruction.

New bangers will be knocking your lame album off the
shelves real quick like a tag goose running in place,

door bells spotted yo girl in the dark with that
rubberband around her neck the nation of violence will
unleash hell on you,

if they knock your body right down to the floor nothing
will change the fact that I am a true champion of what I
do,

we got them on our minds just making them tapout to
this strong struggle submission hold is better than that,

it's all about the money give me a hell yeah shake rattle
roll pop yo ass one more time it's game over boy hey.

Destruction I said get on yo knees,
destruction nothing will change me,
destruction you can't stop us now,
destruction don't burn in my light,
destruction we are taking over,
destruction this fire still burns,
destruction all day long,
destruction all summer long,
destruction all nightmare long,
destruction make them beg for mercy,
destruction.
