Just sitting here wishing that someone will talk to me  
before I have to drop tears again,

I hope she never forgets it because she means  
everything to me,

I am so worthless of making friends at any point let's  
be nothing I heard it lasts forever,

and everybody knows that's my special girl in the whole  
world,

in case you haven't caught on yet.

Tell me the reason why to this question everytime I am  
next to a girl I become shy,

do you ever loved and like me by any chance because I  
really care about this girl,

everytime I am next to a girl I become shy,

I'm really sorry for this pain that I caused to you,

everytime I am next to a girl I become shy,

so explain what is the problem between us being  
friends everytime I am next to a girl I become shy,

everytime I am next to a girl I become shy,

yeah that's right I said everytime I am next to a girl I am  
become shy.
