Okay yo these little cabrons wanna play then huh they better not because they will get fucked up by me and I got putas running in or out the house,

so that's right we all draw blood against this line see after I be pimping girls again,

everybody wants too get at me nah that ain't happening tonight,

just hardcore I'll like acrobatics because I carry so much money hey don't get that shit wrong dog,

gotta drink hyperade energy when I got some weakness I'm super weird shooting free throws,

your wanksta parts just pop when we switch clubs mind yo business before you talk but I get in simple fights for no damn per reason,

don't bring that drama around me alright fools,

and it don't matter if you win or lose anyway because a fight is another day,

and as soon as the battle is over just walk out as someone with your head held high,

but shut up nigga why because your such an dumbass.

Don't talk that trash fallback nigga before you get your azz beat,

don't step or get close to me because fallback nigga before you get your azz beat,

if you don't wanna see blood then fallback nigga before you get your azz beat,

fighting is so useless for this world fallback nigga before you get your azz beat,

getting your azz beat nigga,
watchout nigga before you get your azz beat,
fallback before that azz gets beat,
what I said fallback before that azz gets beat,
nigga your azz is gonna get beat,
fallback nigga before that azz gets beat,
nigga your azz is gonna get beat,
what I said fallback before that azz gets beat,
so watchout before you get your azz beat,
so watchout before you get your azz beat,
I said fallback nigga before you get your azz beat,
what fallback nigga before you get your azz beat,
nigga fallback or get yo azz beat,
fallback nigga before you get your azz beat.
