Do you know what it's like having those emotions all  
around because probably nobody really cares or  
understands how I feel about this girl anymore,

but it is a struggle of love that she didn't even notice  
me today and just be my friend until tomorrow comes  
so you can see my heartbroken for now,

then yesterday arrive when I left ever since I met you  
that smile of yours had made me happy all over again,

because your the only one I am thinking about  
everyday,

still always losing myself if I never kept this secret  
crush inside for so long now,

and if you ever read that note please just keep it with  
you at all times by your side,

because you might never see me again in your life,

so that might be something to remember me by though  
but everything I said I really mean it from the bottom of  
my heart,

and no doubt you're my special girl.

I really wanna be with you forever and always,

stop breaking my heart and love me for who I am  
forever and always,

feeling down so all I ever wanted was your love forever  
and always,

please just be my friend because if you do that will  
make me happy forever and always,

forever and always.

If you don't like me or don't wanna be my friend at all

just let me know so I can take the pain and cry out the  
sadness that's still left,

or if you hate that note real bad don't worry because I  
will forgive you for my mistakes but the one thing that  
is hurting me the most outta all of this,

is that you didn't even say thank you and I'm sorry can  
you just please be my friend this one time,

because I need somebody to hug so why are these  
emotions hunting me,

probably it's the reason I am liking or falling in love with  
you then don't ever forget you're my special girl.

I really wanna be with you forever and always,

stop breaking my heart and love me for who I am  
forever and always,

feeling down so all I ever wanted was your love forever  
and always,

please just be my friend because if you do that will  
make me happy forever and always,

forever and always.
