(Verse 1)

I hope my word's grab your heart so you can sing along
with me,
Never interrogate my motivation,
One day after another rising to stardom,
I will encourage people to follow their destiny,
Always striving of being the best,
Achievable success in my near future,
Divine influence is all I need inside,
Gonna put some more confidence in myself when
working hard,
I will never forget those's who inspired me.

(Chrous)

Living the dream,
Shooting with the stars,
Driven by inspiration,
Having a good time,
And partying all night long,
Just gotta become famous.

(Verse 2)

Show your true greater efforts for what you do,
I am earning a lot of reputation from everybody,
Celebrate something big that you tried so hard to get,
Just blessed with this hidden talent,
On my own Legendary status writing memorable
verses,
Honored me for what I say to you,
I will never forget those's who inspired me.

(Chrous)

Living the dream,
Shooting with the stars,
Driven by inspiration,
Having a good time,
And partying all night long,
Just gotta become famous.

(Verse 3)

Figure out the truth behind my lyrics,
It's really a shame that nobody know's who I am,

Just wishing my life could change,
So I can be living the dream on the road to fame,
Where nothing is ever the same,
We believe in our own beliefs,
Now watch me as I make a name for myself,
I will never forget those's who inspired me.

(Chrous)
Living the dream,
Shooting with the stars,
Driven by inspiration,
Having a good time,
And partying all night long,
Just gotta become famous.

(Bridge)
That's not fair how people don't appreciate my song's,
All I ever wanted was to be respected,
I know who am gonna be in life,
Please just let my voice be heard,
I might need some good inspiration for this one,
Reach your goal and don't give up on anything,
I will never forget those's who inspired me.

(Chrous)
Living the dream,
Shooting with the stars,
Driven by inspiration,
Having a good time,
And partying all night long,
Just gotta become famous.
