(Verse 1)

I really like you a lot,

and this is how I truly feel,

Can I just give you a hug,

sometime do you really feel,

the same way about me,

I just wish you was my friend,

So do you notice me at all,

okay the real reason for this,

is you're the first crush,

I ever had,

Everytime you smile, laugh,

or look at me,

that make's me happy,

but when I don't see you,

that really make's me sad,

Because I know you,

got no interest in me,

I just wish I can hold your,

hand your next to me

because you are so special,

to me,

And everything I say,  
I mean it,  
from the bottom of my heart,  
it's just I felt bad for myself,  
When I was lonely,  
all this time,  
and ever since I met you,  
everything change for me.

(Hook)  
Don't ever leave me because,  
you will always be in my,  
heart,  
Forever at last until we die,  
together,  
Your love is my everyday,  
affection,  
So please just stay with me,  
baby,  
If you wanna break my soul,  
go right ahead,  
If you wanna reject,  
the charm I express,  
toward's you,  
go right ahead,  
So do you really like me,  
that much,

because could you please be  
mine.

(Chorus)  
Let's just be more than friends,

We could make love tonight,  
because you make me feel,  
special,

This might be my only,  
chance,

I have of being with you so,  
Let's just be more than friends.

(Verse 2)  
Everytime I see your smile,  
that make's me feel love,  
without a doubt,  
some of the words are gone,  
until the break of dawn,  
Just put your trust in me,  
that's all I need,  
where would you go,  
if I was flying away from you,  
after being seen,  
It's only a matter of time,  
before we can get to meet,  
again,  
so because I know probably,  
this is what it's mean't to be,

And if you ever feel like,  
crying I am here to cheer up,  
those feelings and emotions.

(Hook)

Don't ever leave me because,  
you will always be in my,  
heart,

Forever at last until we die,  
together,

Your love is my everyday,  
affection,

So please just stay with me,  
baby,

If you wanna break my soul,  
go right ahead,

If you wanna reject,  
the charm I express,  
towards you,

go right ahead,

So do you really like me,

that much because,

could you please be mine.

(Chorus)

Let's just be more than friends,

We could make love tonight,

because you make me feel,

special,

This might be my only,  
chance,  
I have of being with you so,  
Let's just be more than friends.

(Verse 3)

Darkness it hurts,  
it's life,  
they smirk,  
I sit in a corner alone,  
and afraid,  
should I try to get,  
against all vain,  
I lay there hurt,  
not daring to move,  
cause I'm nothing without,  
you,  
Wasting my time,  
I know I am,  
but I don't wanna leave,  
I just hate relationships,  
they are not for me.

(Hook)

Don't ever leave me because,  
you will always be in my,  
heart,  
Forever at last until we die,

together,

Your love is my everyday,

affection,

So please just stay with me,

baby,

If you wanna break my soul,

go right ahead,

If you wanna reject,

the charm I express,

towards you go,

right ahead,

So do you really like me,

that much because,

could you please be mine.

(Chorus)

Let's just be more than friends,

We could make love tonight,

because you make me feel,

special,

This might be my only,

chance,

I have of being with you so,

Let's just be more than friends.

(Verse 4)

I thought this will be a happy,

day for me,

but instead it all changed,

when I could 'nt get that,  
special someone because,  
I was the one who kept,  
drowning in the pool of love,  
Now it seems that nobody,  
really cares about me.

(Hook)  
Don't ever leave me because,

you will always be in my,  
heart,

Forever at last until we die,  
together,

Your love is my everyday,  
affection,

So please just stay with me,  
baby,

If you wanna break my soul,  
go right ahead,

If you wanna reject,  
the charm I express,

towards you,

go right ahead,

So do you really like me,

that much because,

could you please be mine.

(Chrous)

Let's just be more than friends,  
We could make love tonight,  
because you make me feel,  
special,  
This might be my only,  
chance,  
I have of being with you so,  
Let's just be more than friends.

(Bridge)  
If you wanna break my heart,  
or reject me,  
that's alright,  
I will understand,  
If you wanna break my heart,  
or reject me,  
that's alright,  
I will understand.

(Chorus)  
Let's just be more than friends,  
We could make love tonight,
