Mellow sounds as we get to love each other them  
kindhearted people are slow the syndrome is in my  
body, when I sing my song please just (let my voice be  
heard) justify after I rap those verses inside of this  
mind, yeah intensify your chorus after screaming out  
these lyrics nothing except imprecisions keeps the  
music flowing all day, please just (let me voice be  
heard) every illusions that I see drowns out the rhyme  
and beat being sorrow, is not gonna help you in that  
fight can you please just (let my voice be heard). Music  
is gonna be my addiction forever, some verses will  
speak out for it's self music is gonna be my addiction  
forever, the chorus is what I know how to do music is  
gonna be my addiction forever, music is gonna be my  
addiction forever.
