Hey this song is about a friend of mine, her name is sierra when I first met this girl, we didn't get along so I did not talk to her in weeks, but then one day me and her became friends, when you meet sierra she is super nice but only if you are nice to her, this song is like a book with a happy ending because our friendship is important to me, hey sierra is very popular and she got a lot of friends, you people gotta understand this sierra is the nicest girl you will ever meet, if you don't know yet just trust me on that, I know sierra could be very hard to get along with but she's not, because she has a nice cool smile that will take your heart away. Sierra I made this song for you, sierra you deserve your own spotlight, sierra this is your time to shine, sierra you know I always say nice things about you, wow sierra you are so amazing, sierra is a wonderful person, sierra it's all about you now, sierra is so awesome. Sierra thanks for being my friend your the best, I really mean that from the bottom of my heart, once you see her I bet your gonna say that girl is real pretty, from now on then I got respect for sierra, you know why I do because she is a true friend to me, wow this girl is a outgoing person who likes to have fun and she loves to party, wow sierra your beauty shines like the sun, sierra is so cute and beautiful but as a friend I am trying to show you, how much you really mean to me hey am just saying. Sierra is so awesome, wow sierra you are so amazing, sierra you know I always say nice things about you, sierra this is your time to shine, sierra you deserve your own spotlight, sierra is a wonderful person, sierra it's all about you now, sierra I made this song for you.
