Whoa I smelled you again today
The traffic breeze it blows us slowly
Will I lay inside a hundred maidens
Will I smell you again today

Hey there God

Whoa it happened to me today
Strychnine water fought to drown me
The lonely early morning canteen strolling
The fire on my inside fought to drown me

Hey there God

And I'm a little problem through
And I'm a little spent too
You'll wanna scream too

Was I born afire or set on fire
The question newly sought was found to me

Hey there God

And I'm a little problem through
And I'm a little spent too
You'll wanna scream too

Was I born afire
Or was I set on fire

Whoa it happened to me today
Strychnine water fought to drown me
Will I lay inside a hundred maidens
Will I smell you again today

Hey there God

And I'm a little problem through
And I'm a little spent too
You'll wanna scream too
