So you're sending me on a holiday  
Where did the time go  
I saw it pass away

We wear nothing but sad faces  
Where did the time go  
I saw it pass away

Pain is simple confidence  
It helps me to slow down  
Slow it down

We go nowhere but old places  
Where did the time go  
That way  
Slow it down

We were old familiar strangers  
How was the time though  
Not bad

Pain is simple confidence  
Helps me to slow down  
Slow it down
