The Middle East one day, it blew in, swept away  
In comes the sunshine, story turned to strange  
In walking comes a smile, I didn't know the day  
She sits down beside me, perfectly arranged

Laura's gone away, I don't know just how long she'll be  
there  
Sadly eyes of pain are bouncing in and out of nowhere

She wanders all around, will she make it on fries and  
coffee  
Bigger words than tears, I'm afraid of what it might be

Laura's gone away, I don't know just how long she'll be  
there  
Sadly eyes of pain are bouncing in and out of nowhere  
And she's bouncing in and out of nowhere

Ain't nobody help me on the outside  
Gotta make it through to the inside  
And I'm talking strange

Ain't nobody help me on the outside  
Gotta make it through to the inside  
And I'm talking strange  
Talking strange

Laura's gone away, I don't know just how long she'll be  
there  
Sadly eyes of pain are bouncing in and out of nowhere

It's alright, she leaves it all behind  
We all run for the Middle East sometimes  
Little mind yeah can take us anywhere  
Escape us anywhere, escape us everywhere
