Yeah I've got this wondrous feeling
Yeah I'm in this place again
Yeah I'm waking up and I need somethin'

And it seems quite simple
For us common people
It's all the rage where I am

Wait and see it'll change you
All aboard rooster awakes you

Woke up wrong this mornin
Couldn't talk to anyone
Help me, I'm slave, to the high and I need somethin

Wait and see it'll cure you
All aboard rooster wake you
Wait and see it'll change you
All aboard rooster awakes you

And it seems quite simple
For all you common people
It's all the rage where I am

Wait and see it'll cure you
All aboard rooster take you
Wait and see it'll change you
All aboard rooster awakes you
