My life is a stereo  
How loud does it go  
What songs do I know  
And what ever happened to my plans  
What ever happened to life I thought I'd have

My life is a stereo  
Kind of cheaply made though  
How bad does it show  
What ever did become of all my friends  
What ever happened to the likes of all of them

My life is a stereo  
Turn me on and let's go  
Turn me up louder  
I'll scream as loud and clear as I can scream  
If you like what you're hearing please hang on to me

I like being here and I'm all hooked up wrong  
Hang on to me though I'm one of a million  
Please hang on to me

My life is a stereo  
Out of phase but you know  
Sixty cycles humming  
And what ever happened to my friends  
What ever happened to the likes of all of them

I like being here and I'm all hooked up wrong  
Hang on to me though I'm one of a million  
Please hang on to me

And my lights are like candles  
I'm so afraid of new technology  
I'm in the race and I don't to be  
I'm so afraid of what's to come to be  
I'm in the race and I don't to be

Life ends in stereo  
Pack me up and let's go  
Put me anywhere  
Please don't think of leaving me behind

Whatever happens to you I'll get on just fine

One of a million
