

The Wednesday Night Heroes "Open Fire"

It's like...screaming while tied to a rack
You keep talk, talking back
Too many obstacles in my path
Up against the wall, open fire!
Break glass & spray paint the walls
It's time to grow some fucking balls
We're at war against them all
Up against the wall, open fire!

Who are you to look down on me? OPEN FIRE
The firing squad's taking aim...OPEN FIRE
In a blindfold we look the same...OPEN FIRE
Yeah, open fire!
There's panic, panic in the streets
There's panic, panic in the homes
There's panic everywhere we go
Up against the wall...OPEN FIRE
You're laughing, you're laughing at me
But you + me = we
We're in search of unity
Up against the wall...OPEN FIRE
Ready, Aim, Fire
Fire...you can't control me
Firing Squads in front of me [x2]
Up against the wall, up against the wall
Put the blindfold on, put the blindfold on
