Wake me up
Take my soul in the name of the lord
'Cause I still fight the feeling and I...

I take a ride that is in my brain and
I fly in my mind on it everyday
Take a ride that is in your brain and
You find in your mind you've got
Everything you could want
Sister said
She's got everything she could want and so much more
But I just don't believe her
And I

I take a ride that is my in brain and
I fly in my mind on it everyday
Take a ride that is in your brain and
You find in your mind you've got
Everything
