Smother me inside your lies
The mindless masses preach
Committed to a useless time
And yet it's everything
Got to suck to be like you
With all that shit you've worn
Cool, hat and car would say
Another clone is born

I'll take you by the hand and lead you to the shelter of
The copied man who does what others say

Imitate

You're never gonna change inside by lying through
your teeth
What about you take the chance, and do things
differently
Forget about what others say and create something
new
Then you would inspire and they would follow you

I'll take you by the hand and lead you to the shelter of
The copied man who does what others say

Imitate

Nothing but total commitment breeding that's inside of
me
And you
