Honesty will set you free but individuality is
wonderland
The greatest gift provided, kept inside in case no-one
understands
Add animal instinct here
When all is settled and done there's just empathy
chains
The crowd was second to none but the memory
remains

CHORUS:

In lilly's garden (x2)
Some are small and some were smaller
Wise above the size but they're all in here (but they're
all in here)
The need of company, condition free and wanting me
when I was near

And down beneath the ground waters meet
In the confusion of friendship they don't let you down
To break the future in gently, they're always around

CHORUS:

In lilly's garden (x3)
