"Mindslide"

Every time I get to thinking my patience is shrinking,
it's a mindslide
And every time I light a candle to face an angle, it's a
mindslide
I wake up fine then I'm taking a tumble, it's nothing
personal at all
But a mindslide don't wait to call

Every time I'm closer to something the feeling is
nothing to a mindslide
It's cold and dark it's a company killer, Cruella Devilla,
it's a mindslide
My heart's in the song but my head's in the battle, you
catch your death in the fall
'cos a mindslide don't wait to call - hey!

CHORUS:

I'd like to live in the movies where weird is totally
groovy
But out in the sticks, socially it don't mix, 'cos nothing's
gonna break your stride like a mindslide
Take yourself away from the next one, away from the
loved ones, it's a mindslide
Stay resigned, you don't even choose it, so how could
you lose it - it's a mindslide
I'm walking on air then I'm down on my kneesies, I got
a chain and a ball
'cos a mindslide don't wait to call - hey!

CHORUS:

Wish I could live in the movies where weird is totally
groovy
And maybe I'll stay out of everyone's way, 'cos
nothing's gonna rape your pride like a mindslide

Try to make sense out of something uneven, it'll have
you lickin' the walls
'cos a mindslide don't wait to call (x3)
