Watch yourself... here it comes... aaaaah...

Try to run and you try to hide, hide your face in the
other side
Sycophantic or paranoid? suck on the milk of your plan
destroyed

CHORUS:

Tell me
Where, where, where the fuck you been?
Where, where, where?
Where's the world through your palace walls? Babylon
in the bargain stores
Naive says naive guess the rest, life's a play to the
soon impressed

CHORUS:

Tell me
Where, where, where the fuck you been? (x3)
The more I see is the less I learn (x3), the less I feel is
the more I burn

CHORUS:

Tell me
Where, where, where the fuck you been? (x3)
([where... where...] oh yeah)
